### EXPERIENCE

#### FULL STACK DEVELOPER, Elkhart, IN

Midwest Raptor Junkies, July 2022–August 2023

- Utilized Agile methodology for project management activities such as sprint planning meetings.
- Wrote production-ready code with fluency in modern front-end JavaScript frameworks.
- Developed responsive websites based on client requirements.
- Implemented E2E testing using cypress.
- Integrated third-party services such as Square Web payments and Google APIs.

#### FULL STACK DEVELOPER, Goshen, IN

TitanHosting, May 2022–July 2022

- Integrated third-party services such as Stripe payment gateway.
- Worked closely with stakeholders to understand business requirements and translate them into technical solutions.
- Developed and maintained front-end web applications using HTML, CSS, JavaScript, React.js, Next.js.
- Led effort to specify, improve, and implement functionality of UI and UX best practices.

#### FRONT END DEVELOPER, Redding, CA

ProEstimates, December 2021–April 2022

- Learned new front-end programming languages and methodologies to perform tasks.
- Assisted in developing a SPA architecture that provides a seamless user experience across multiple platforms.
- Collaborated closely with the back-end developers to integrate API calls into the front-end codebase.
- Utilized modern frameworks like AngularJS and Node.js for developing interactive client-side applications.

### EDUCATION
